TO PLAY THIS GAME, YOU'LL NEED THE 24 DRAUGHTS PIECES GIVEN FREE WITH LAST WEEK'S BUSTER. IF YOU MISSED LAST WEEK'S ISSUE, (SHAME ON YOU!), YOU CAN USE 24 COINS, 12 OF ONE TYPE FOR EACH PLAYER.

J. Edward Oliver

HOW TO PLAY:

Each player takes a set of 12 pieces of one colour. Put 8 of your pieces on the "START" space. These are the counters you will move round the board.

Keep the remaining 4 counters. You'll use these to determine which player will move on each turn.

Each turn consists of three parts, in this order:

1. The Showdown.
2. The Actions.
3. The Move.

1. THE SHOWDOWN.

Each player secretly chooses a number from one to four and carefully conceals this number of counters in one hand (using the counters that are NOT on the board). When you're both ready, you must each open your hand to reveal the number of counters you've chosen.

The winning player is the one who has chosen the higher number, except that ONE counter will beat FOUR. If in doubt, consult this chart:

- 2 COUNTERS BEAT 1 COUNTER
- 3 COUNTERS BEAT 1 OR 2 COUNTERS
- 4 COUNTERS BEAT 2 OR 3 COUNTERS
- 1 COUNTER BEATS 4 COUNTERS

If both players reveal the SAME number of counters, the winner is the first one to shout the word "BUSTER!"

2. THE ACTIONS.

You must REMEMBER the instructions on any spaces ON WHICH YOU HAVE COUNTERS.

As soon as you WIN a SHOWDOWN, you must IMMEDIATELY CLOSE YOUR EYES and perform the actions described on these spaces. You must do this from memory (without looking) and in the correct order (clockwise around the board). At the beginning of the game, of course, you need only perform the action on the "START" space.

If you FORGET to do the actions, if you can't REMEMBER them, or if you get any WRONG, you DO NOT MOVE on that turn.

If you get them all RIGHT, you may make your move along the track.

3. THE MOVE.

The player who won the SHOWDOWN and has successfully performed the ACTIONS may now move ONE counter round the track the number of spaces in his or her winning hand (for example; if you won the SHOWDOWN by holding three counters, you would move forward three spaces. If each player held one counter, the player that

first shouted "BUSTER!" would move forward one space).

During the game, if you manage to get two or more of your counters on one space, you may, on future turns, move these counters TOGETHER round the track. For example, if you have seven counters on one space and you win a SHOWDOWN by holding two counters, you may move all seven counters forward two spaces - providing you've remembered to do the actions, of course!

After the winning player has moved, players have the next SHOWDOWN, as described above.

HERE'S A HINT:

It's a great advantage to get as many of your counters as possible on the same space. Not only will you be able to move round the board more quickly, you'll also have fewer actions to remember!

HOW TO WIN:

The winner is the first player to get all eight counters to the "FINISH" space. You do NOT have to land on this space exactly.
